

Ottoman Bed Frame Assembly Instruction Guide

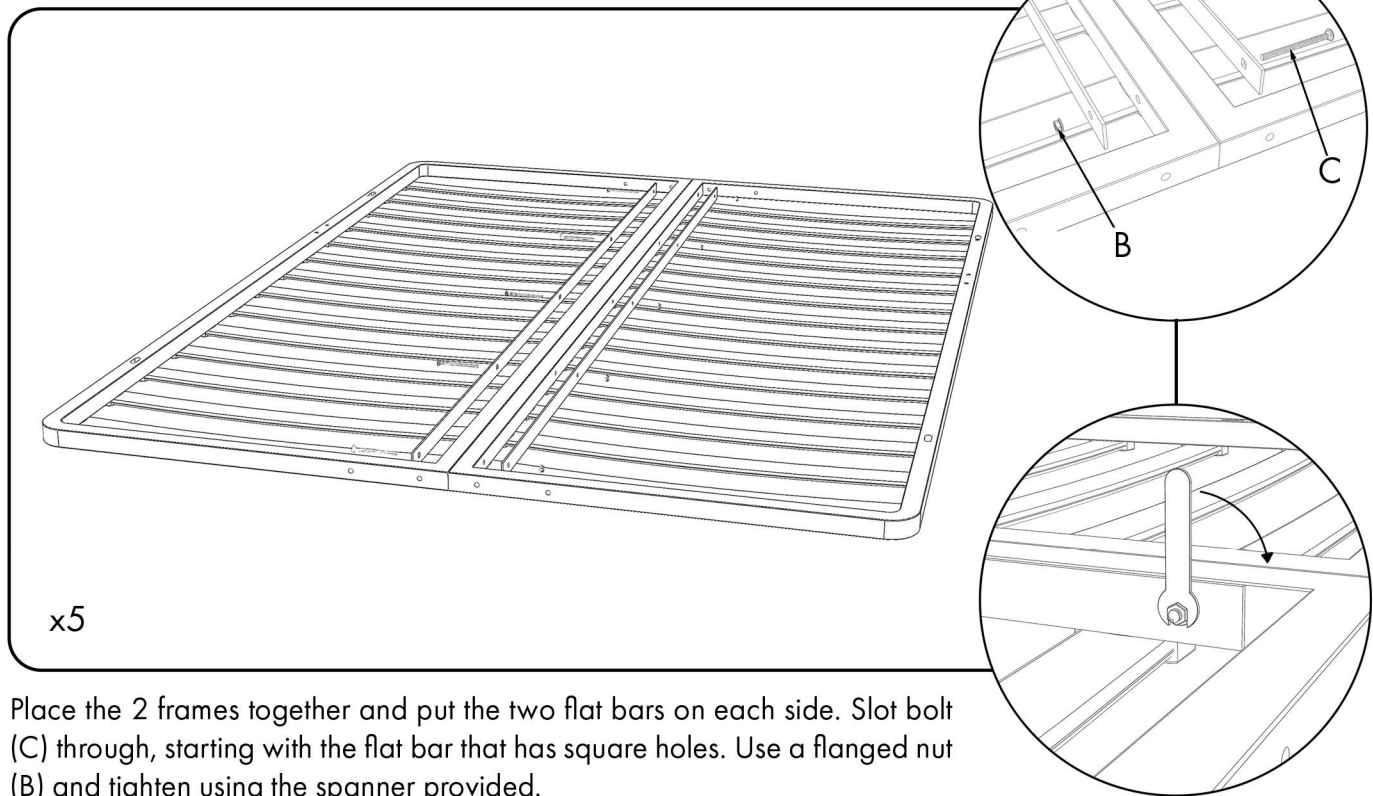

Supplied Fittings

A	B	C	D	E	F
					
x 1	x 5	x 5	x32	x14	x6

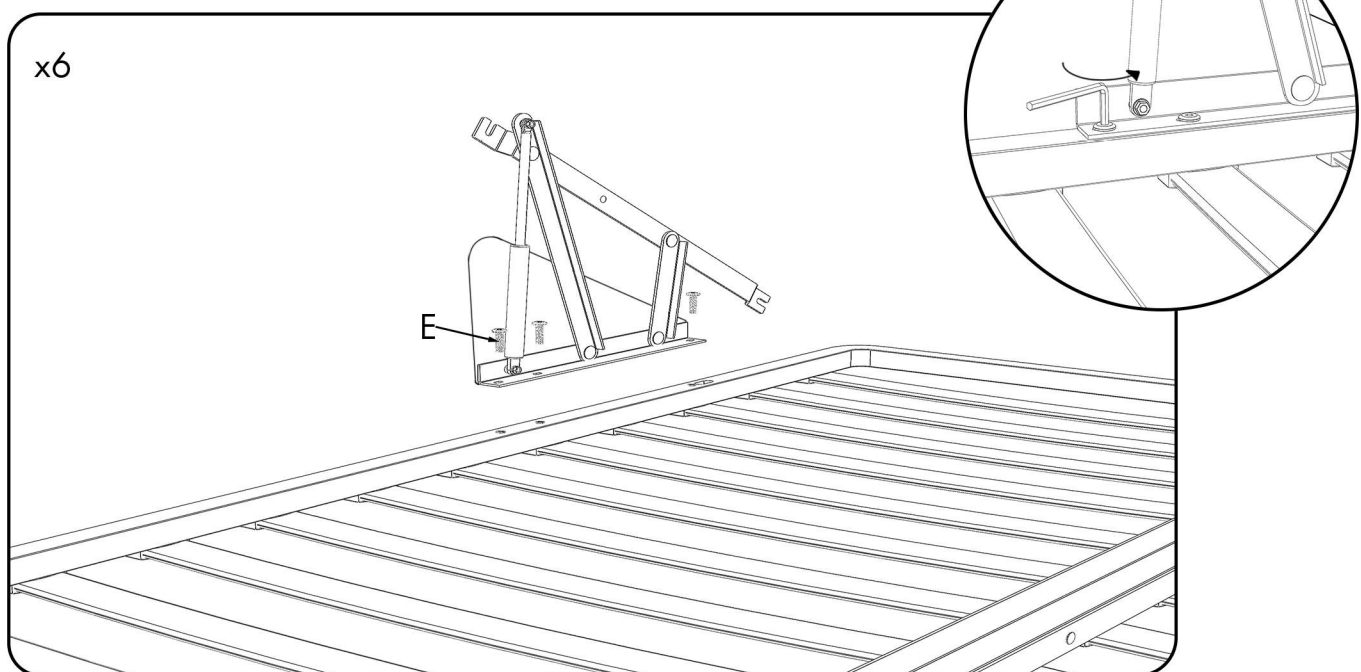

03WM-01A 2019-05-16

Please check you have the correct fittings and read through before commencing with assembly

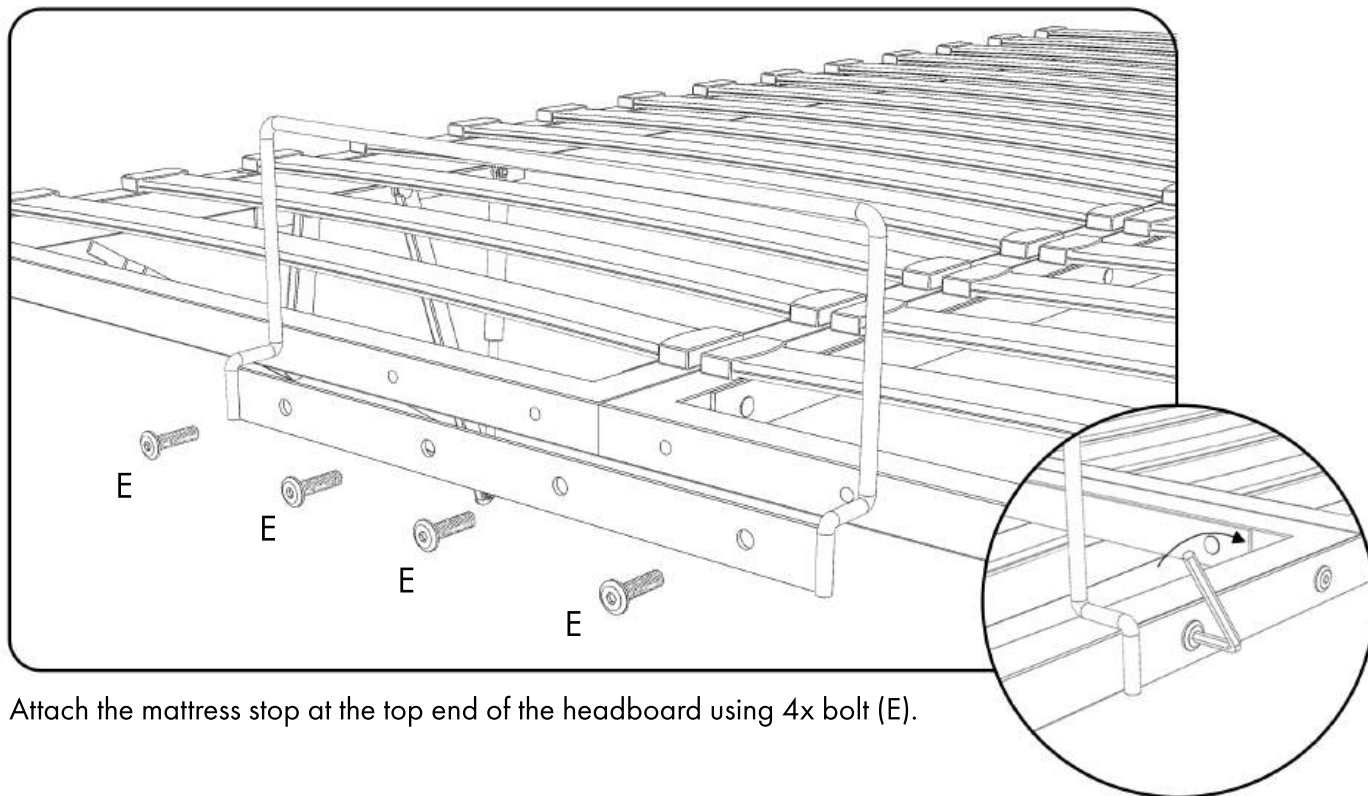

Step 1

Step 2

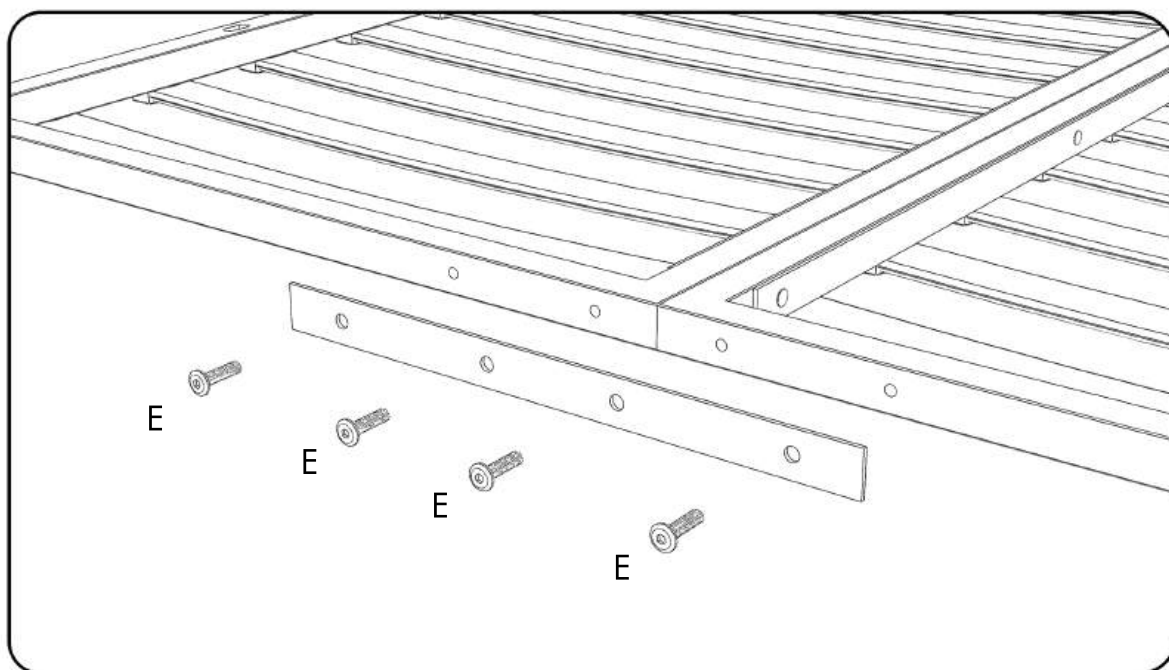

Step 3

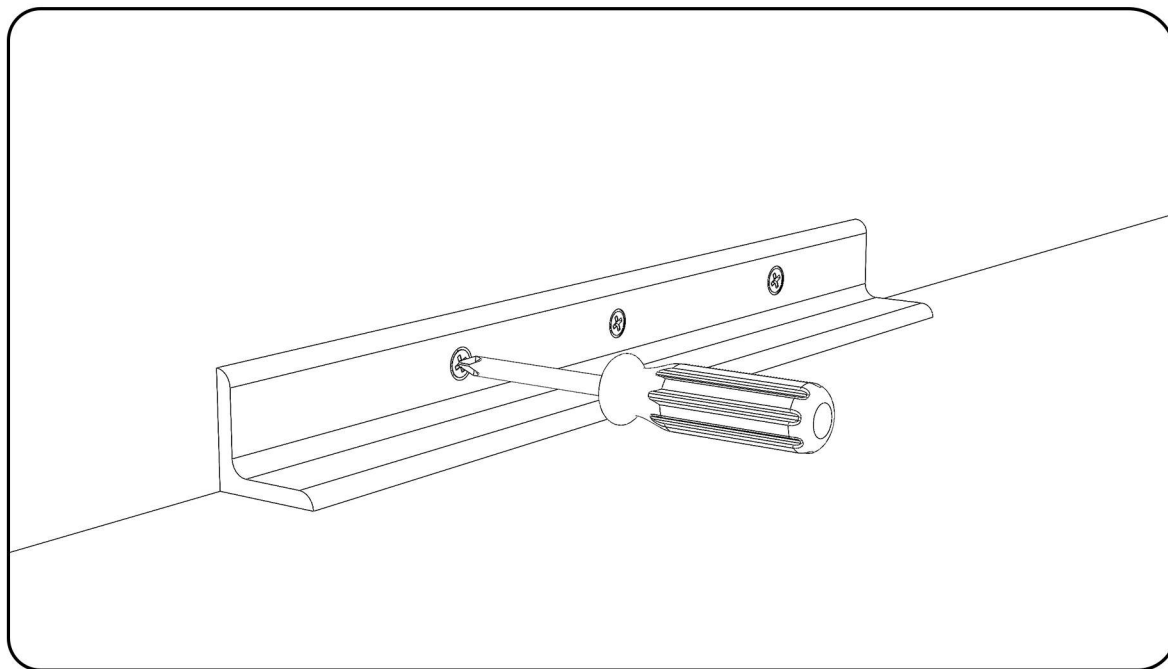

Attach the mattress stop at the top end of the headboard using 4x bolt (E).

Step 4

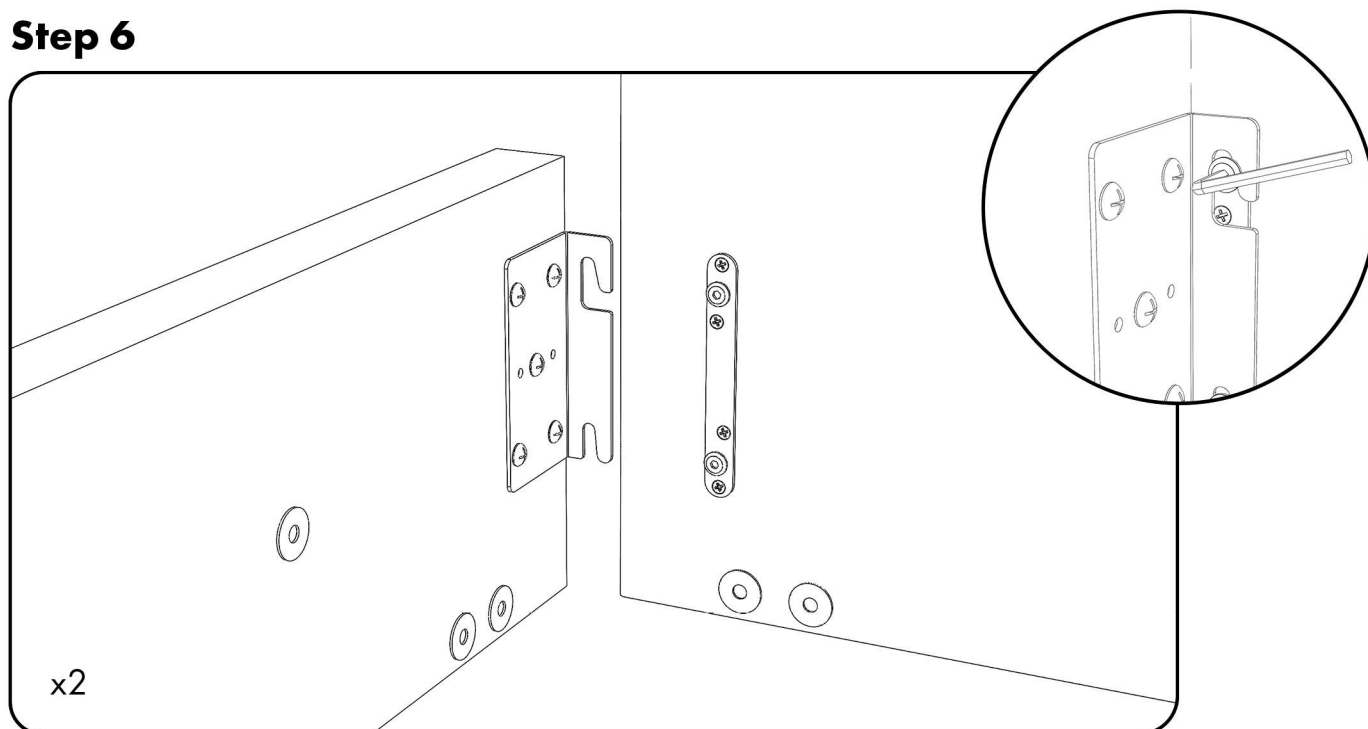

Attach the strengthening bar at the bottom end of the headboard using 4x bolt (E).

Step 5

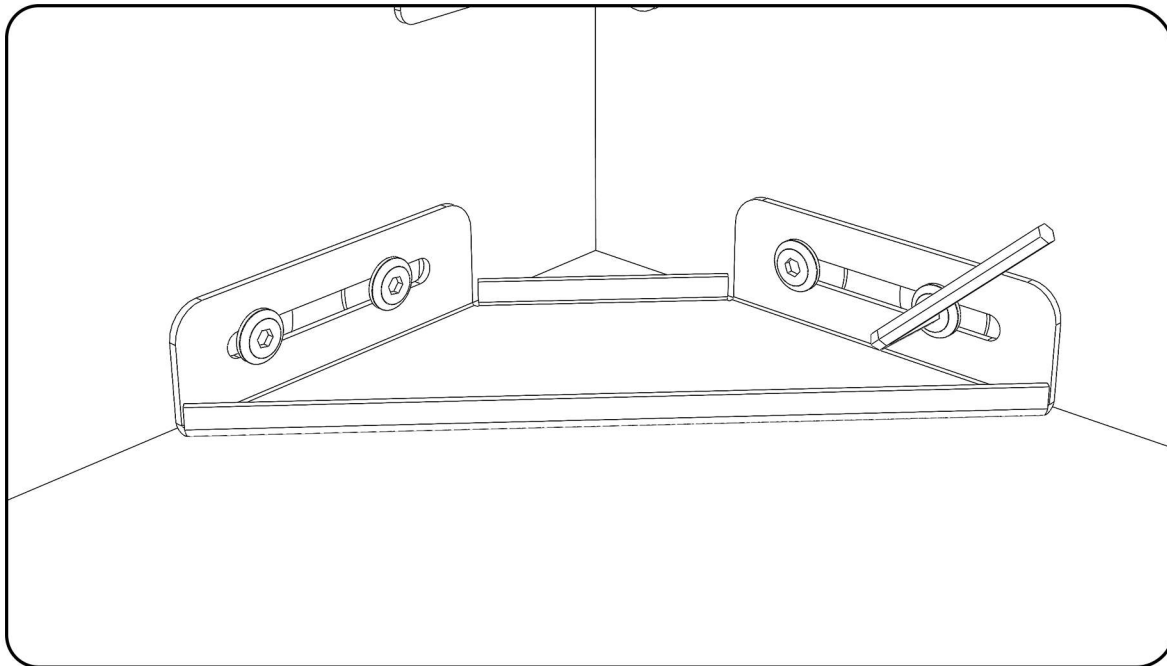

Fit the right-angled brackets to the side rails, using screws (F).

Step 6

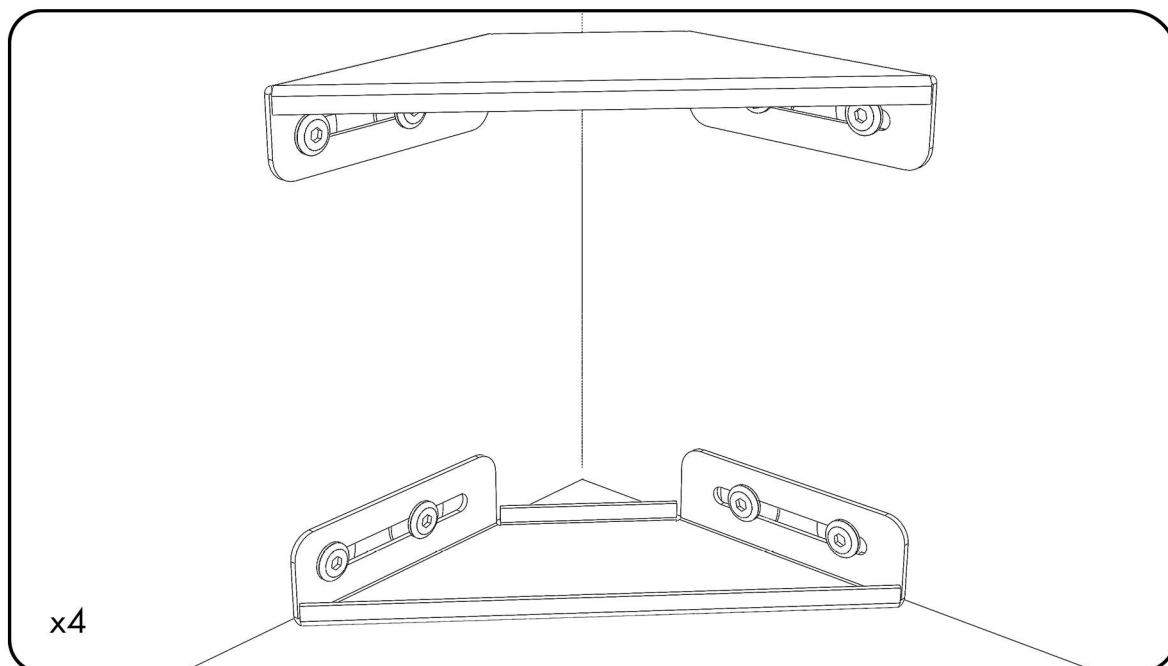

Slot the side rail on the bolts on the headboard. Secure using allen key provided. Repeat for other side rail.

Step 7

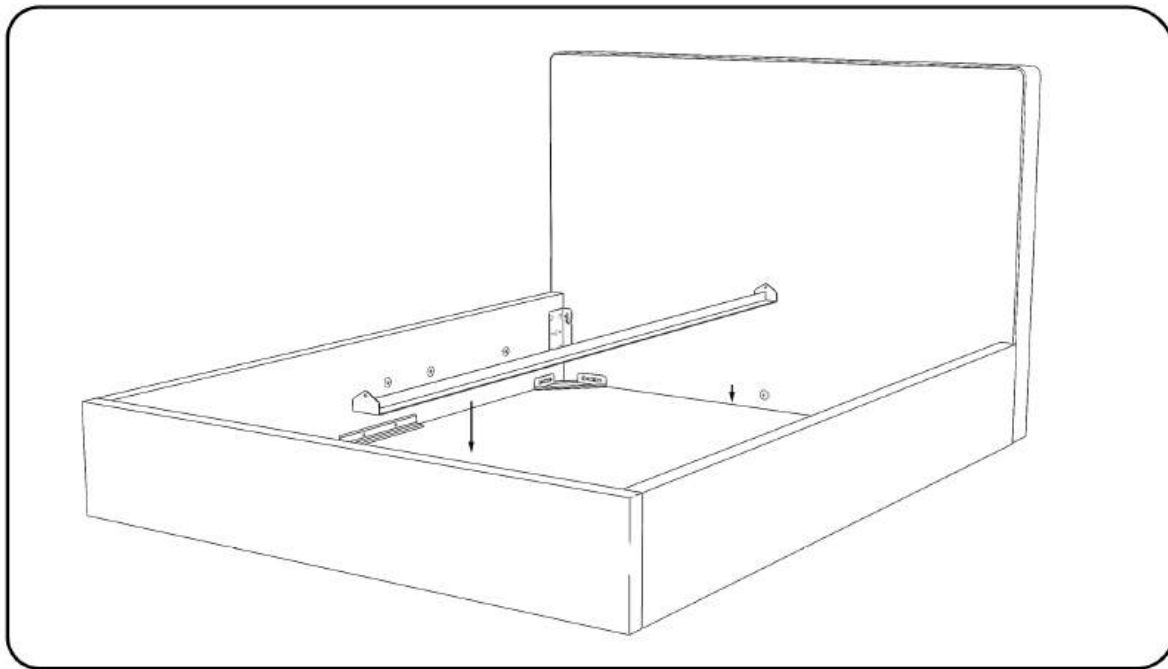

Fit the head end corner brackets (2x) using 4x bolts (D) for each bracket. Tighten using allen key provided.

Step 8

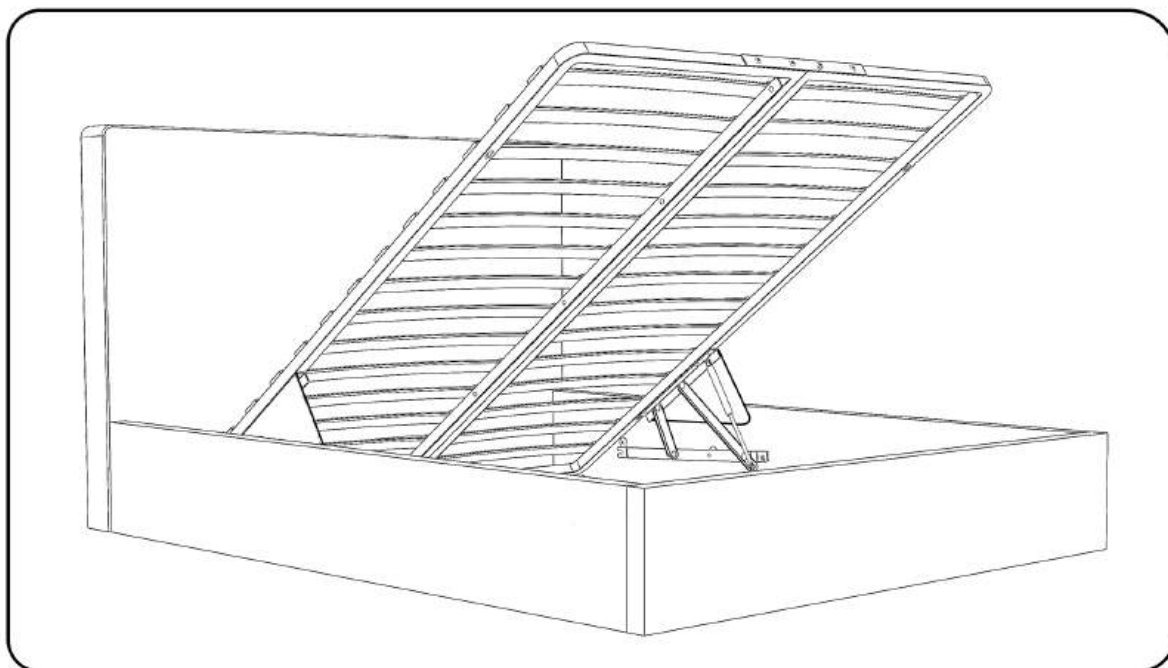

Fit the foot end corner brackets (4x) using 4x bolts (D) for each bracket. Tighten using allen key provided.

Step 9

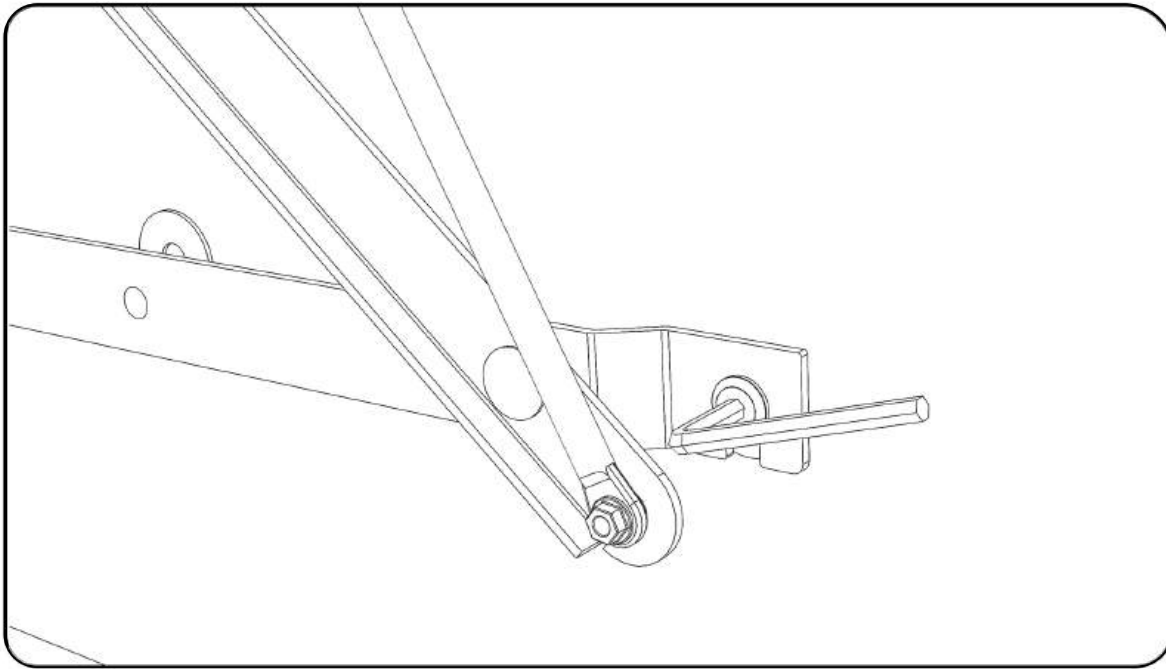

Position the centre rail and secure to the head end and foot end with bolts (D).

Step 10

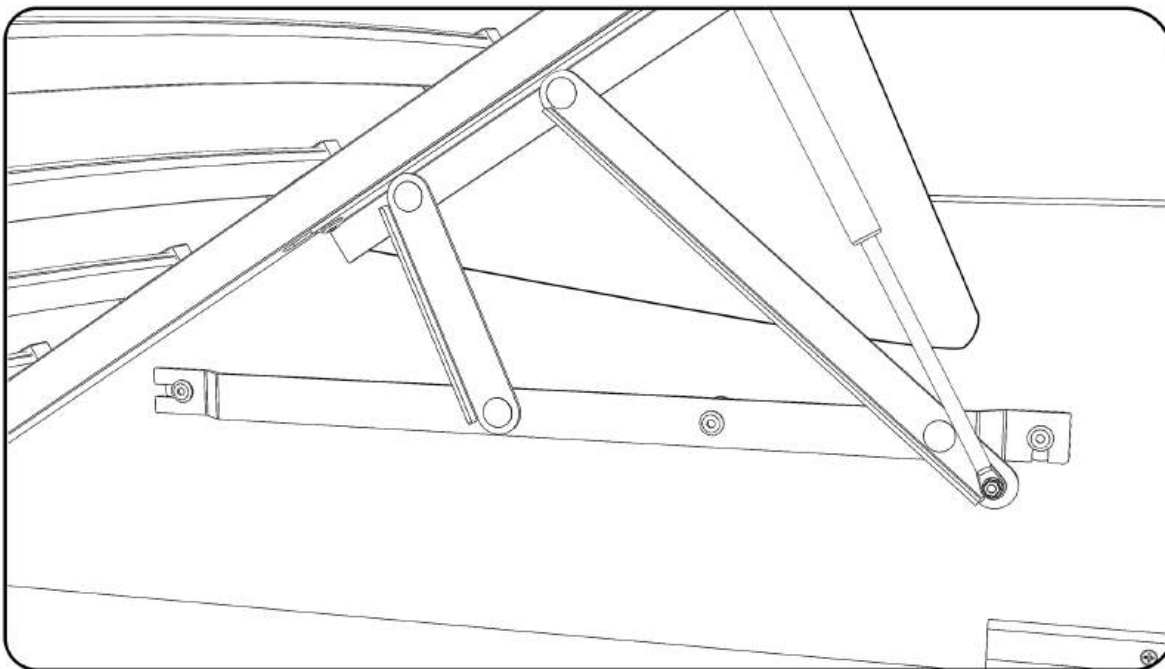

THIS IS A TWO PERSON OPERATION. Lift the metal frame into the bed, rest the head end on the centre rail, fitted in step 9. Angle the whole frame as shown so that the bolt holes line up in preparation for step 11.

Step 11

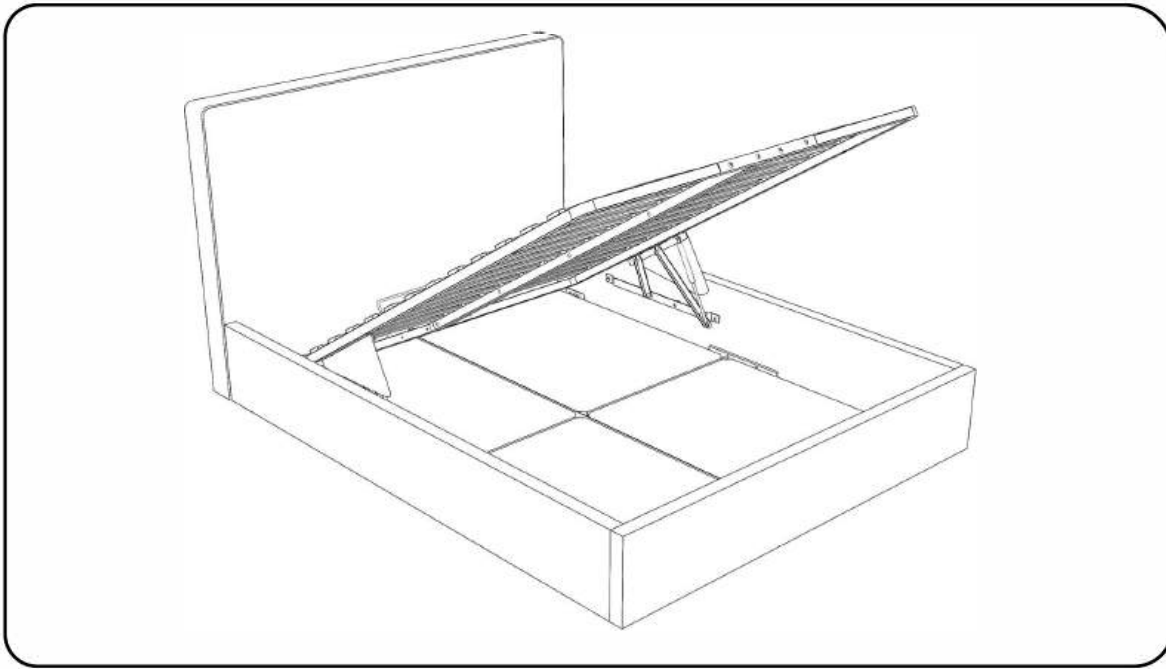

THIS IS A TWO PERSON OPERATION. Loosely fit 1x bolt (D) into the first hole (furthest away from the head end) in each side rail. Hook the end of both lifting arms onto these bolts and tighten.

Step 12

THIS IS A TWO PERSON OPERATION. Tip the metal frame so that the rest of the holes in the lifting arm, line up with the holes in the side rails. Fix in place using 2x bolts (D) per side and tighten all bolts using allen key provided.

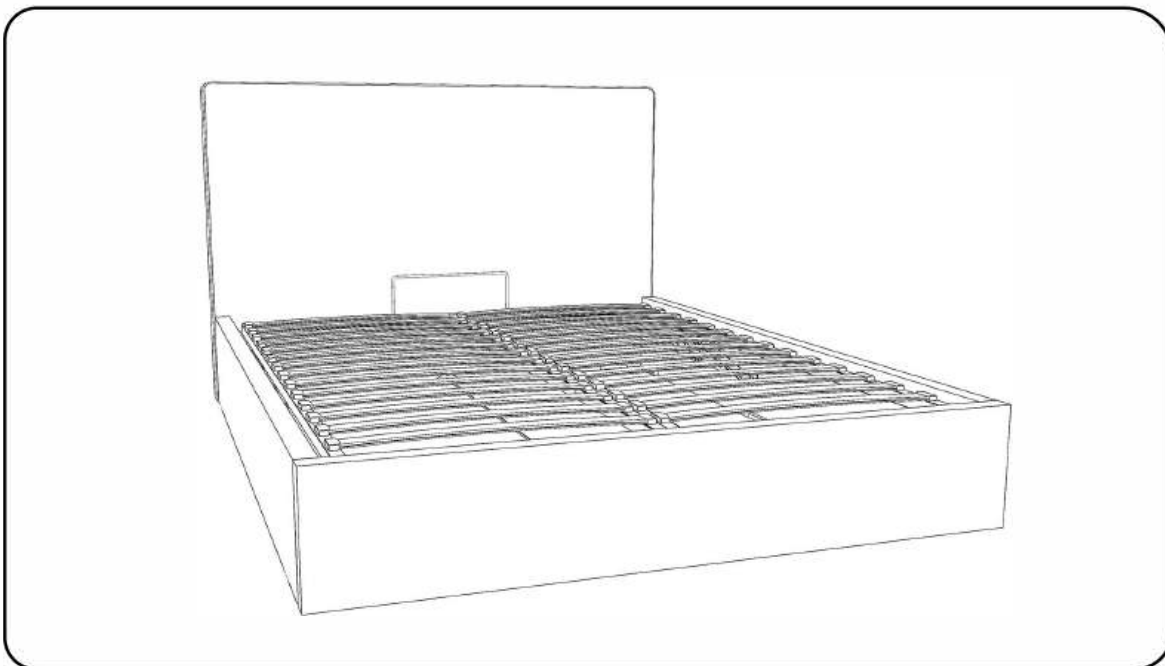

Step 13

Slide the head end panels into position followed by the foot end panels.

Slowly lower the bed mechanism, ensuring that the finger guards do not catch on the side rails.

Step 14

Lift the metal frame up from the foot end to access the storage section.

Your bed is now fully assembled. Please do not use without a mattress and periodically check that all fixing are tightened correctly.

General product safety and user warnings

- Caution. Ottoman beds use a pressurised mechanism.
- Use caution when operating and accessing the storage area.
- Only open the storage ottoman from the intended access point at the centre of the footboard end.
- Always use two hands at arm's length when opening and closing the storage ottoman.
- Be aware of entrapment around moving parts when in use and accessing the storage area.
- You must ensure the mattress is on the bed frame before lifting the mechanism-failure to do so may result in injury.
- Please ensure children and pets are kept away from the bed when operating the bed mechanism.
- Do not allow children to operate the mechanism.
- If removing the mattress, make sure that the frame is secured as it could flip open.
- Only use the storage compartment when the frame is fully raised in the 'up' position.
- Ensure no children or animals are left unattended when the frame is in the 'up' position.
- Do not remain on the bed whilst the lifting mechanism is in use.
- Beware of Entrapment- Keep both hands and all body parts clear of mechanism when operating the mechanism.
- Do not jump on the bed frame.
- Periodically check the pressurised struts and hinges to ensure they are functioning correctly. You notice any wear, damage, or malfunction, discontinue use immediately and contact a professional for repair.
- Periodically check there are no loose screws on the unit.
- Keep children and animals away from work area, small parts could cause choking if swallowed.
